*This workshop was made possible by the Communities of Opportunity (COO) Learning Community. COO is a public-private-community initiative, funded by King County through Best Starts for Kids and the Seattle Foundation, that works through community-driven partnerships to create greater racial, economic, and health equity so that all youth, families and communities in King County thrive and prosper. The COO Learning Community leverages the power of collective knowledge to accelerate change, focusing on providing resources for shared learning opportunities, building critical connections, supporting capacity building, and the creation of equity tools, models and conditions that actualize the thriving communities we envision.*
